Store Closes 5:30 p. m.

FRESH AS A DAISY

It was a pleasure indeed to see our little army of 70-odd co-workers, happy, radiant, smiling as they came to work this morning. How are you?

"FRESH AS A DAISY"

answers one—thus speaking for all.

After a 2-day rest finds everybody in his or her place ready and willing to take up the new day.

You gave us the greatest Christmas business we've ever had, and we appreciate it—but with multiplied thousands of transactions mistakes are sure to occur. Today and the days after, we will gladly correct all errors, adjust all differences and make any exchanges desired and fulfill the promises made to patrons relating to gift-purchases.

This is an an-all-year-round store and it is only telling over again the old things with the hope of new effectiveness that not

even the raids of a week of

Happy Christmas Buyers

can knock out our stocks sufficiently for anyone but ourselves to see the difference.

It is Something For a Man or Store

to be fresh and pleasant every morning before 9 o'clock (then he will be good the remainder of the day)

Dr. Rulley Married.

Sunday's Parkersburg News contained the following announcement: The marriage of Miss Pearl Webster, of Meigs county, O., and Dr. C. J. Rulley, of Clarksburg, was solemnized on Saturday evening at 8 o'clock by the Rev. W. D. VanVoorhis, pastor of the First Christian church, at the parsonage on Twenty-first street.

The bride was attired in a gown of blue broadcloth trimmed with fur, with lace blouse and blue hat to correspond. Mrs. Rulley has been a school teacher for some time, being employed last year at the Park school of this city. Both young people are well known. They departed immediately after the service for Toledo, O., and Canada and on their return they will reside in Clarksburg. Dr. Rulley is a brother of Mrs. David Shuttis and Mrs. S. W. Young, of this city.

Brilliant Card Party.

One of the most brilliant Yuletide card parties, of twenty-one tables, was given from 3:00 to 5:00 o'clock Monday afternoon by Mrs. M. A. Nussbaum at the Masonic Temple in honor of her daughters, Misses Mabel and Lucille, who were home from eastern schools for the holidays.

Christmas decorations were most elaborately and artistically used, augmented by groupings of poinsettia and crimson roses, and with the charming afternoon costumes worn by the many guests, formed a brilliant scene under the soft glow of the electric lights.

At 5:00 o'clock a delicious salad supper was served at small tables. Covers were laid for 100 guests.

Delta Kappa Ball.

One of the most elaborate and brilliant social affairs of the Yuletide season will be the ball to be given Monday evening by the Delta Kappa Club in the auditorium of the Masonic temple. Quite a number of out-of-town guests will be in attendance, also the many college girls and boys home for the holiday season.

The committee in charge will be Messrs. George Denham and Charles Lamberd. A special program of dance music will be played by the Daughters' orchestra of Pittsburgh.

To Give Dance.

Tuesday evening Mr. and Mrs. John L. Ruhl will entertain at a dance in the auditorium of the Masonic temple in honor of their daughters, Misses Rebecca and Mary Ruhl. The guest list will include the college girls and boys, home for the holidays.

Improved culinary and washing arrangements.

Various Activities. The various activities of the bureau are well shown in the report in dealing with the model basin, where hull designs are tested, the wind tunnel, where aerodynamic experiments are made and other experimental equipment. Twenty per cent of the work done last year in the model basin was for private shipbuilders who are learning of the advantage this adjunct of the navy has been to its designers. A device to simulate storm conditions and wave motions is now being installed in the tank.

Of aircraft design the report says: "The development of the aeroplane seems to be in the direction of larger weight capacity and greater speed and in this respect is repeating the history of the development of warships."

The department has designed and begun construction of an aeroplane to carry 2,260 pounds as a means to develop knowledge of this subject among its engineers.

Great Accomplishment. The recovery of the wrecked submarine F-4 at Honolulu is regarded by navy experts as an unequalled accomplishment. The success of the operations was in part due to extensive tests of deep-diving conducted during the year, beginning with experiments in a laboratory tank where pressure was arranged to equal that at depths never before reached by divers. Chief Gunner Stillson, the navy's crack diver, directed the work and the later actual diving at sea which showed what had been accomplished. Still greater achievements are hoped for as a result.

The reports point out the high standard of efficiency made by bureau employees, it being known that no vessel designed by the navy has shown overweight during the last twelve years, a record no private company nor the designers of any other government have equalled. Re-rating of bureau employees is asked in order that some hope of advancement may be given them and an increase in personnel to do away with the compulsory overtime the reports declare they have cheerfully rendered. The case of a contractor at one of the navy yards who has been forced for months to work twelve hours every day including Sundays is cited as showing the short-handed condition of the force while the naval establishment has been steadily increasing.
